

Well-Balanced Meals are Principal Factor in Camp Sponsored by Kiwanians

Lunches in Morning and Afternoon Are Feature of Day; Hikes, Games and Rest Hours Included in Routine on Owens' Farm

Games, camp chores, story hours and rest periods make up the daily program of the three dozen youngsters who are guests at the Kiwanis Children's Health Camp on the Owens' farm south of the city. Excellent well-balanced meals, served regularly, are interspersed with other nutritious refreshments both morning and afternoon.

The children, ranging in age from seven to 12 years, have received attention in regard to health and education. Operations and their results also have been given attention, either by their family dentist or at the free dental clinic at Marion City Hospital. With the exception of a few, all have been vaccinated for smallpox.

The youngsters arrive at the camp at 8:30 a. m. and, taking half an hour for dressing, the day begins at 9 o'clock. The day consists of 7:15 a. m. and camp chores from 8 to 8:30 a. m. Morning inspection at 8:30 a. m. is followed by games and playing on the lawn until time for the morning lunch at 9:45 o'clock. Rest period from 10 to 11 o'clock is followed by play or handicrafts and dinner at 12 o'clock.

The period from 1 to 3 o'clock is scheduled for rest followed by afternoon lunch consisting of milk and grain from water and a play period from 3:30 to 5:30 o'clock. Supper hour is followed at 6 o'clock by play or handicrafts and dinner at 7 o'clock.

The program for the day is as follows: Breakfast 8:30 a. m. (includes milk, cereal, fruit, bread, butter, jam, etc.) Lunch 9:45 a. m. (includes milk, cereal, fruit, bread, butter, jam, etc.) Dinner 12 o'clock (includes meat, vegetables, fruit, bread, butter, jam, etc.) Supper 6 o'clock (includes milk, cereal, fruit, bread, butter, jam, etc.)

American Government Has Retaliatory Weapon to Use in French Debt Agreement

Paris Raising Objection to Commercial Clause in Mellon-Berenger Pact; Treasury Now Has Demand Notes on France Totalling \$2,997,477,800

Washington, July 15.—The American government is not without a retaliatory weapon should France ultimately repudiate the Mellon-Berenger debt agreement.

Treasury officials made this plain today while showing increasing irritation over the dilatory tactics of the French, and particularly over the barrage of propaganda letters sent out from Paris in favor of lighter terms than even the *ly coute* on the dollar pact already signed.

One of the objections which Paris is now raising against the Mellon-Berenger agreement concerns the commercial clause, by which the French government would turn over to the American government bonds to the amount of the indebtedness, which binds the American government reserves the right to dispose of as it sees fit.

The same clause is contained in every foreign debt agreement negotiated to date and none of the other debtor nations has seen in it any menace to its

financial standing. Of course, the American government has no intention of marketing such bonds. Only a financial stringency of the worst sort, a panic would compel this government to put this paper in the market.

In the first place the market couldn't stand it, according to financial experts, and in the second place, the bonds would have to be sold at a heavy discount, entailing an enormous loss to the treasury.

The French are well aware of this, according to treasury officials and consequently there is all the more reason here to doubt the sincerity of the French protest concerning this so-called "commercial clause."

However, it was pointed out today, there are now in the treasury demand notes on France totalling \$2,997,477,800, the principal of the original debt, bearing interest at 5 percent.

Terms of Loan

Under the terms by which the United States advanced the money to France there was reserved the right to dispose of her notes as this government saw fit. Therefore, it was pointed out today, there is no barrier to the treasury selling this paper for what it will bring in the open market. The present law provides that the paper shall not be sold at less than par value, but in the event of repudiation by the French of the Mellon-Berenger agreement, it is not doubted here that Congress would be in a mood to change that feature of the law in short order.

The effect of throwing this French paper on the world market would be, of course, tremendous. Financial experts hesitate to predict the effect it would have on French credit and the already tumbling franc.

No serious consideration has yet been given such a move by treasury officials, nor will there be unless the politicians of France wreck the Mellon-Berenger, which is the fruit of six years negotiation, and which officials here consider the best deal in American history. It is significant, however, that a treasury spokesman cited this reserve weapon today as one way in which the United States might recover something from the millions lost in France should her politicians reject the new agreement. M. Berenger signed here some months ago.

Franco-British Pact

The Franco-British debt agreement, it was said, can have no effect on the Franco-American pact, so far as this government is concerned. Totally different conditions surrounded Britain's advances of funds to her ally, then presented when France borrowed from Washington. For one thing it was pointed out, most of the American money that went to France went after the war was over. Britain's debt was largely if not wholly incurred while hostilities were in progress and before the United States went in.

Paris Scientist Tells of Gland Experiments

DR. SERGE VORONOFF, an international authority on glands, has said: "The brain, the nerves, the kidneys, the muscles, as well as the liver, the kidneys and all other organs, would be incapable of playing any useful part without the aid of the glands. The functioning of our organs is no more than the activity of our glands, and when the bodily functioning is disturbed, the cause in most cases should be sought, not in the condition of the organs itself, but in the condition of the gland which controls it."

Glandogen, the new scientific gland tonic, which is prepared in convenient tablet form, for men and for women, provides a simple method of taking glandular treatment. Accept no substitutes. In sold on genuine Glandogen, the original gland tonic. Bradley Drug Store will supply you—Adv.

TUESDAY JULY 13, 1928

What is the use of worrying about the fact of
the French franc? Hasn't Arthur Brisbane
given us his opinion on that? It's bound
to come back.

The motorist always runs into people he
knows when traveling. A writer who
has been traveling for some time has
decided that he doesn't know half
the people he runs into at home.

Talking about those dry expenditures over
in Pennsylvania. It's amazing how much money
it takes to put over a great moral principle.

The per capita wealth is now \$200.
Whoopie! That's a pretty decent car
each and leave a little over for gas and car
charges.

A thirty-five year sentence for Durkin may
appear to some as adequate punishment. If
he does not stop to consider that up in Chicago
he's got five years more about thirty-five
months.

In a recent raid up in Chicago thirteen bar
tenders were arrested. Besides their habit
of running an honored establishment like that.

It must not be taken that Senator Borah
is going to speak in every state of the union this
summer, against the world court. It is due to any
particular grudge against the people of the
land. William simply has to talk.

States have changed somewhat, but not the
law. In one respect at least, and no suppose
that should the law be substituted for
women's attire practically none at all with
men's the guardians of the law would feel
called upon to place her under arrest as a
violation to public morals.

It's just possible that the senate's various
proposals to do a little outside housecleaning
could attract a little more respect if it con-
tained the habit of occasionally doing a little
inside its walls.

Charlie Chaplin has come in for a lot of
good natured joshing over his proposal to un-
der the part of Napoleon. As a matter of fact
Chaplin is a better actor than something like
ninety nine per cent of the so called stars of
the screen—and that isn't saying so much
either.

Secretary McInnis has departed for a
short stay in Europe. We may naturally an-
ticipate an outburst from Mr. McInnis on the
subject of Americanism of those who spend
their money abroad.

Spending and disorderly conduct were the
charges placed against twelve boys for run-
ning past two stop lights up in Chicago.
Sliding into two taxicabs and driving off in
taxies an hour. Joyous must have been bitten
by the motorists bug that time she slipped to
take a bath in Chicago.

University of Illinois officials hold that the
use of the automobile by students during the
school year involves waste of time results in
many accidents causes many violations of
traffic regulations adds to traffic congestion
and contributes to moral delinquency. If it is
as anything in these pelling story in com-
mon fairness they should admit it adds the
harm in studying the more by getting the at-
tention from the glare of city lights and in
close contact with the heavenly bodies.

Three Times in One Week.

One day last week, workmen torn up the
paving of the alley leading south from Center
street and between Main and State for the
purpose of repaving it. There is no fault to
be found on this score for the paving was in
very bad condition. The alley was repaved
with practically the same brick. Then it was
decided that there was need of a new and
larger water pipe to supply the restaurant in
the west of the alley. So the alley was re-
paved again with a new water pipe laid and
that part torn up repaved again. About this
time the discovery was made that there were
a number of very bad leaks in the old pipe
on the other side of the alley next to the drug
store, so the paving was torn up for the third
time that a new water pipe might be laid. The
week ending with an open trench about twenty
feet long extending down the alley.

Of course it is necessary at times to tear up
paving in streets and alleys. The more
needed. But it strikes us that something is
wrong under a system—it may be better to
say in the lack of a system—which permits
the same bit of paving to be torn up three
times in the same week. It seems to us that
the time to have considered the need of larger
water pipes and the possible leakage of old
pipes should have been when the old water
pipe was torn up and before the brick paving
was replaced.

A little thinking at the right time would
have saved money for all concerned. It would
have resulted in the blacking of the alley for a
shorter period and lastly and far more im-
portant it would have resulted in less tax-
payer in far better condition than it was in
after last week's treatment.

He Served His Country Well

We have a fine example of a man who
has served his country well. He is a man
who has been in the army for many years
and has been in the army for many years.
He is a man who has been in the army for
many years and has been in the army for
many years.

A man who has been in the army for many
years and has been in the army for many
years. He is a man who has been in the
army for many years and has been in the
army for many years. He is a man who has
been in the army for many years and has
been in the army for many years.

It is a man who has been in the army for
many years and has been in the army for
many years. He is a man who has been in
the army for many years and has been in the
army for many years. He is a man who has
been in the army for many years and has
been in the army for many years.

But our most pleasing recollections of John
W. Weeks will ever be of Weeks the man and
courageous kindly gentleman rather than
Weeks the official. Of all men we ever knew
in public life none excelled his graciousness
and courtesy. It was his policy in making a
man or a woman known to him in a social
pathway, of men kindly generous he
fostered a patriotic American he gave up his
life in response to the call to meet the of-
ficer of the war just as surely as did those who
perished in it.

If we get the Hon. Smith Whitman Brook
hart correctly he doesn't say what he means
or mean what he says.

A Londonable says the modern Juliets over
there are demanding molasses from two and
a half to five cents in size. We may have
here an explanation of the number of semi-
retired bachelors and bachelorettes over there
these days.

If we get the consensus of the opinion of
the Americans who have invested money in
the islands as expressed in Colonel Thompson
it is a hard duty which the United States
owes itself and the islands also as well
as the cause of humanity to hold onto the
Philippines.

Despite America's alleged scorn for kings
about all of us will accept at par Alfonso's
statement that he would be at home rather
than in exile if there were no doubt in Spain.
We're ready to admit that he is on a
crowned head at least who never crowned
a risk.

We note a knowing leaning on the part of
a number of Democratic papers in the view
that the average congressman's election is a
needless expense and generally less unless
of course it offers a chance of getting some-
thing over on the opposition party.

There's a suspicion that high society men
are expanding to tinamous for motor cars
that may go all right but how with the in-
crease the women ever going to in the
supplies they receive when they visit the
fat fire cracker?

Bad Habits Bring Consumption.

BY ROYAL C. COLLET AND M. D.
United States Senator from New York

It is tempting to think that at last we are
at the end of the decline. When I look to the
public health statistics we are the chief cause of
death in the United States. It is now exceeded
by several ailments.

To Comment

July 15—Rumors of a
merger between the Ohio Fuel Cor-
poration and the Columbia Gas and

George W. Crawford, president of the

of the Columbia Gas and Electric Co.,
declined to comment on the rumors.
The merger was under way, it was
stated, but no definite action had been
taken. Then, as now, officials
refused to comment.

AIR PHOTOGRAPH SHOWS MUNITIONS BASE AS CRATER OF DEATH AS SCORES DIE AND MILLIONS IN PROPERTY ARE DESTROYED

Seen from the air, the Lake Denmark, N. J., arsenal of the army and navy appears a seething cauldron of fire. A strong wind, aided by the flight of exploding shells, spread the havoc far from the scene of the original disaster. Rescue parties were prevented from penetrating close to the heart of the disaster area by the continued explosions.

UNITED STATES Consul General
Miller, at Seoul, Korea, gives this
interesting information about an Amer-
ican missionary of the Seventh Day Ad-
ventist Church.

The missionary caught a little Korean
boy stealing apples from his orchard.
Clenching the boy's mother with
prison for her son, the great missionary
ordered a nurse to bring acid, and with
it he lashed, in Korean, the word
"thief" on each of the boy's cheeks.
The missionary's mark is still there,
and the missionary has settled with the
boy's mother for \$310, with a public
apology.

THIS marks missionary work in the
east generally as the story spreads.
But it should not cause to be forgotten
the innumerable kindnesses, self-sacrifices
and devotion of missionaries of all
churches.

McGRAW OUTFIT IS COMING BACK, SCOTT WITH REDS

The McGraw outfit, which was the first to be defeated by the Reds in the first round of the series, is expected to be back in the lineup for the second round of the series.

IN eleven games played with the Giants this season the Reds have pulled only three hits out of the fire. They have lost their last five straight games played with the Giants. The McGraw outfit, which was the first to be defeated by the Reds in the first round of the series, is expected to be back in the lineup for the second round of the series.

MANAGER Jack Hendricks of the Reds is desperate these days. Saturday the Red pilot announced the purchase of Everett Scott from the Chicago White Sox. Scott, who in Sunday's game, pitched a two-up and handled himself in first class style.

THE addition of Scott to the Red lineup is expected to mark the passing of Frank Emmert. Emmert, who has been the Red's first baseman for the last three years, is expected to be traded to the Chicago White Sox.

Emmert got his start around the hands of Cleveland players, and then moved to the Red's first base. He was a good player, but he was not a good pitcher. He was a good player, but he was not a good pitcher.

Expect Light Heavyweight Crown to Change Hands in New York Bout This Week

Berly Isn't Much, in Opinion of Davis J. Walsh, Who Expects To See a New Champion Crowned, Believes Go Will Last Only Few Rounds

BY DAVIS J. WALSH
NEW YORK, July 13.—Having rallied around the bandwagon for Paul Berlenbach during upward of a month, public sentiment today veered sharply to Jack Delaney as the probable winner on Thursday night of the greatest light-heavyweight title match in the history of pugilism. As usual, public sentiment is almost worthless.

In the first place, Delaney is NOT the probable winner. A certain claim to a certain title.

In the second place, the general claim to a certain title.

No pro-Delaney men will be not only entitled to a certain title.

Personally, I cannot see how Delaney can win. Berlenbach is an old hand, and he is a right hand to the chin.

Jack Delaney is 6 to 5 favorite.

NEW YORK, July 13.—Paul Berlenbach and Jack Delaney, principals in the world's light-heavyweight championship bout on Thursday night at Coney Island, entered the final stages of their training today.

now watch my smoke!

I'M STARTING the day right—with my jimmy-pipe and a load of Prince Albert. Bring on your work. Heap it up. We three are going to wade through it like a trick dog going through a paper hoop. Me and the pipe and Prince Albert—we can lick any job... like that!

No fooling, Men, P. A. is a grand little pal. It knocks trouble out in the very first round. It smooths out the wrinkles and paints a beautiful sunburst on the darkest cloud. No wonder they call P. A. the National Joy Smoke! It sure is great tobacco.

Prince Albert is as cool and refreshing as the morning plunge. Sweet as a peach, sun-cooked on the tee. Fragrant as a bridal bouquet. I like the way it treats my tongue and throat too. Never a regret, never a protest, no matter how hard I hit it up, morning to midnight.

You may think you're all set on the matter of smokes. I want to say right here and now that unless you have signed on with Prince Albert, you've been missing the treat of your young life. Get yourself a tidy red tin of this wonderful tobacco and see. That's a tip!

PRINCE ALBERT

—no other tobacco is like it!
